BLACKWELL SCIENTIFIC PUBLICATIONS

OXFORD LONDON EDINBURGH BOSTON MELBOURNE

1980

PRINTED IN GREAT BRITAIN AT THE ALDEN PRESS, OXFORD

PUBLISHED BY BLACKWELL SCIENTIFIC PUBLICATIONS, OSNEY MEAD, OXFORD

CONTENTS

VOLUME 41 · NUMBER 1 · JULY 1980

C. J. M. SINDIC, C. L. CAMBIASO, P. L. MASSON & E. C. LATTERE: The binding of myelin basic protein to the Fc region of aggregated IgG and to immune complexes 1

C. J. M. SINDIC, C. L. CAMBIASO, P. L. MASSON & E. C. LATERRE: The elution of IgG from subacute sclerosing panencephalitis and multiple sclerosis brains 8

S. UENO, J. KANG, H. TAKEUCHI, M. TAKAHASHI & S. TARUI: Specificities of antibody to acetylcholine receptor in rabbits with experimental myasthenia gravis 13

M. PIANTELLI, P. MUSIANI, L. LAURIOLA, A. CARBONE, P. TONALI & M. A. DINA: Lymphocyte subpopulations in non-neoplastic thymus from myasthenia gravis patients 19

K. BUSCHARD, S. MADSBAD & J. RYGAARD: Depressed suppressor cell activity in patients with newly diagnosed insulin-dependent diabetes mellitus 25

RITA MIRAKIAN, G. F. BOTTAZZO & DEBORAH DONIACH: Autoantibodies to duodenal gastric-inhibitory-peptide (GIP) cells and to secretin (S) cells in patients with coeliac disease, tropical sprue and maturity-onset diabetes 33

FAYE MEEK, E. L. KHOURY, DEBORAH DONIACH & H. BAUM: Mitochondrial antibodies in chronic liver diseases and connective tissue disorders: further characterization of the autoantigens 43

R. KOFLER, M. TABARELLI, S. SCHWARZ, H. WOLF, K. LOEWIT & G. WICK: Characterization of antisera against bovine prolactin for *in vivo* studies on prolactin function in the rat 55

F. DUMONT & F. ROBERT: Age- and sex-dependent thymic abnormalities in NZB × SJL F_1 hybrid mice 63

J.-P. MATHY, R. BAUM & B. H. TOH: Autoantibody to ribosomes and systemic lupus erythematosus 73

CHRISTINE A. FACER: Direct antiglobulin reactions in Gambian children with *P. falciparum* malaria. III. Expression of IgG subclass determinants and genetic markers and association with anaemia 81

L. H. PERRIN, E. RAMIREZ, L. ER-HSIANG & P. H. LAMBERT: *Plasmodium falciparum*: characterization of defined antigens by monoclonal antibodies 91

L. C. GASBARRE, K. HUG & J. A. LOUIS: Murine T lymphocyte specificity for African trypanosomes. I. Induction of a T lymphocyte-dependent proliferative response to *Trypanosoma brucei* 97

K. MEHTA, R. K. SINDHU, D. SUBRAHMANYAM & D. S. NELSON: IgE-dependent adherence and cytotoxicity of rat spleen and peritoneal cells to *Litomosoides carinii* microfilariae 107

T. E. MILLER & ELAINE STEWART: Host immune status in uraemia. I. Cell-mediated immune mechanisms 115

ELAINE STEWART & T. E. MILLER: Host immune status in uraemia. II. Serum factors and lymphocyte transformation 123

T. TSUBOTA, I. MIYOSHI, J. UNO, S. HIRAKI, T. KOBAYSHI, U. SATO & I. KIMURA: Immunological distinction of adult T cell leukaemia from T cell acute lymphoblastic leukaemia 130

P. GUGLIELMI & J. L. PREUD'HOMME: Stimulation of T lymphocytes by protein A from *Staphylococcus aureus* in B-derived chronic lymphocytic leukaemia 136

A. R. HAYWARD: Resistance of pokeweed mitogen-stimulated B cells to inhibition by deoxyadenosine 141

UPENDRA SINGH: *In vitro* lymphopoiesis in foetal thymic organ cultures: effect of various agents 150

R. M. M. VICTORINO & H. J. F. HODGSON: Alteration in T lymphocyte subpopulations in inflammatory bowel disease 156

PRAKASH S. NAGARKATTI, MITZI NAGARKATTI & V. C. JAIN: *In vivo* and *in vitro* action of chloroquine on surface markers of human peripheral lymphocytes 166

SURRINDER K. NANRA & B. BOETTCHER: Correlation between mixed lymphocyte culture and phytohaemagglutinin stimulation responses of human lymphocytes 173

M. Eibl, Ch. Zielinski, R. Ahmad, F. Steurer & A. Rockenschaub: Plaque-forming cells in human cord blood: studies on T and B cell function 176
Rosemarie Dalchau & J. W. Fabre: Quantitative studies of the tissue distribution of the antigens recognized by rabbit anti-rat, -dog and -human lymphocyte sera 182
Notices 188

VOLUME 41 · NUMBER 2 · AUGUST 1980

M. Zanetti & P. Druet: Passive Heymann's nephritis as a model of immune glomerulonephritis mediated by antibodies to immunoglobulins 189
F. D. Lindström, J. Hed & S. Eneström: Renal pathology of Waldenström's macroglobulinaemia with monoclonal antiglomerular antibodies and nephrotic syndrome 196
G. J. Fleuren, J. Grond & Ph. J. Hoedemaeker: The pathogenetic role of free-circulating antibody in autologous immune complex glomerulonephritis 205
G. J. Fleuren & Ph. J. Hoedemaeker: Triple-drug treatment of autologous immune complex glomerulonephritis 218
M. S. Ascher, P. B. Jahrling, D. G. Harrington, R. A. Kishimoto & Virginia G. McGann: Mechanisms of protective immunogenicity of microbial vaccines: effects of cyclophosphamide pretreatment in Venezuelan encephalitis, Q fever and tularaemia 225
G. F. Grimaldi, Pamela L. Moriearty & R. Hoff: *Leishmania mexicana* in C3H mice: BCG and levamisole treatment of established infections 237
R. G. Margolese, Evelyne Israel & M. A. Wainberg: Non-specific inhibition by virus particles of human lymphocyte mitogenesis 243
Lynn Nye, L. C. Pontes de Carvalho & I. M. Roitt: Restrictions in the response to autologous thyroglobulin in the human 252
N. Loveridge, Lucille Bitensky, J. Chayen, T. U. Hausamen, J. M. Fisher, K. B. Taylor, J. D. Gardner, G. F. Bottazzo & D. Doniach: Inhibition of parietal cell function by human gammaglobulin containing gastric parietal cell antibodies 264
C. Masala, G. Smurra, Maria Anna di Prima, Maria Antonietta Amendolea, D. Celestino & F. Salsano: Gastric parietal cell antibodies: demonstration by immunofluorescence of their reactivity with the surface of the gastric parietal cells 271
J. T. La Brooy, D. Rowley & D. J. C. Shearman: Measurement of intestinal antibody by radioimmunoassay 281
J. T. La Brooy, G. P. Davidson, D. J. C. Shearman & D. Rowley: The antibody response to bacterial gastroenteritis in serum and secretions 290
Lindsay Scott-Morgan & R. S. Lloyd: Failure to demonstrate any interaction between polyclonal rheumatoid factors and IgG antinuclear antibodies or other IgG autoantibodies 297
R. W. Pitcher-Wilmott, P. Hindocha & C. B. S. Wood: The placental transfer of IgG subclasses in human pregnancy 303
M. Zembala, E. M. Lemmel & W. Uracz: Activation of human monocytes for nitroblue tetrazolium reduction and the suppression of lymphocyte response to mitogens 309
J. M. Seigneurin, J. C. Renversez, Monique Baccard, D. Seigneurin & C. Micouin: Monoclonal cryoimmunoglobulin with anti-cytomegalovirus activity associated with T cell chronic lymphocytic leukaemia 317
A. Celada, Teresa Aguado, P. H. Lambert & A. Cruchaud: Effect of autologous and homologous serum and circulating immune complexes on monocyte functions of patients with solid tumours 326
C. Bordignon, R. Avallone, G. Peri, Nadia Polentarutti, C. Mangioni & A. Mantovani: Cytotoxicity on tumour cells of human mononuclear phagocytes: defective tumoricidal capacity of alveolar macrophages 336
R. P. Artz, R. R. Jacobson & W. E. Bullock: Decreased suppressor cell activity in disseminated granulomatous infections 343

F. Hirahara, I. Gorai, K. Tanaka, Y. Matsuzaki, Y. Sumiyoshi & Y. Shiojima: Cellular immunity in pregnancy: subpopulations of T lymphocytes bearing Fc receptors for IgG and IgM in pregnant women 353

F. A. Ferrari, Rita Maccario, M. Marconi, Maria Antonia Vitiello, A. G. Ugazio, V. Burgio & A. G. Siccardi: Reliability of alpha-naphthyl-acetate esterase staining of blood smears for the enumeration of circulating human T lymphocytes 358

S. Gupta & R. A. Good: Subpopulations of human T lymphocytes. XV. T lymphocytes with receptors for IgA (Tα), a distinct subpopulation of T lymphocytes. Studies in patients with primary immunodeficiency disorders 363

J. Gomez-Reino & Gail S. Habicht: The effect of the plant lectins phytohaemagglutinin and concanavalin A on human T cell populations bearing receptors for IgG and IgM 372

S. Ida, J. J. Hooks, R. P. Siraganian & A. L. Notkins: Enhancement of IgE-mediated histamine release from human basophils by immune-specific lymphokines 380

Forthcoming Meeting 388

VOLUME 41 · NUMBER 3 · SEPTEMBER 1980

M. O. Gad El Rab, D. R. Thatcher & A. B. Kay: Widespread IgE-mediated hypersensitivity in the Sudan to the 'green nimitti' midge, *Cladotanytarsus lewisi* (Diptera: Chironomidae). II. Identification of a major allergen 389

J. Touw, G. L. Stoner & A. Belehu: Effect of *Mycobacterium leprae* on lymphocyte proliferation: suppression of mitogen and antigen responses of human peripheral blood mononuclear cells 397

Indira Nath & R. Singh: The suppressive effect of *M. leprae* on the *in vitro* proliferative responses of lymphocytes from patients with leprosy 406

A. J. L. Macario, W. Stahl & R. Miller: Lymphocyte subpopulations and function in chronic murine toxoplasmosis. I. Thy-1$^+$ cells in chronic toxoplasmosis 415

J. Brown & M. E. Smalley: Specific antibody-dependent cellular cytotoxicity in human malaria 423

W. P. H. Duffus & D. Franks: *In vitro* effect of immune serum and bovine granulocytes on juvenile *Fasciola hepatica* 430

S. S. Witkin, S. K. Shahani, S. Gupta, R. A. Good & Noorbibi K. Day: Demonstration of IgG Fc receptors on spermatozoa and their utilization for the detection of circulating immune complexes in human serum 441

R. J. Heddle, A. O. Kwitko & D. J. C. Shearman: Specific IgM and IgG antibodies in IgA deficiency 453

R. H. Kauffmann, W. A. Herrmann, C. J. L. M. Meijer, M. R. Daha & L. A. Van Es: Circulating and tissue-bound immune complexes in allergic vasculitis: relationship between immunologlobulin class and clinical features 459

K. Yanase & S. Imamura: Immune complexes in patients with drug eruptions: the relationship between skin lesions and circulating immune complexes 471

R. A. Newman, M. G. Ormerod & M. F. Greaves: The presence of HLA-DR antigens on lactating human breast epithelium and milk fat globule membranes 478

J. Werkmeister, J. Zaunders, W. McCarthy & P. Hersey: Characterization of an inhibitor of cell division release in tumour cell cultures 487

D. Lappin & K. Whaley: Effects of histamine on monocyte complement production. I. Inhibition of C2 production mediated by its action on H2 receptors 497

A. C. Issekutz, K. W. Movat & H. Z. Movat: Enhanced vascular permeability and haemorrhage-inducing activity of zymosan-activated plasma 505

A. C. Issekutz, K. W. Movat & H. Z. Movat: Enhanced vascular permeability and haemorrhage-inducing activity of rabbit $C5a_{des\ arg}$: probable role of polymorphonuclear leucocyte lysosomes 512

MÁRIA HORVÁTH, ÉVA SZONDY & ANNA LADÁNYI: The effect of autologous serum, Oradexon and heparin on the cell-mediated immune response in vascular diseases 521
L. A. FERNANDEZ & R. A. FOX: Perturbation of the human immune system by lithium 527
G. A. HASHIM, N. YEE & W. G. RAMEY: The kinetics of T lymphocyte subpopulations in guinea-pigs sensitized with allogeneic transplantation antigens 533
K. SWART & B. LÖWENBERG: A characterization of T lymphocyte colony-forming cells (TL-CFC) in human bone marrow 541
A. BRATESCU, E. MAYER & M. TEODORESCU: Factors affecting the differential counting of human lymphocyte subpopulations in blood smears 547
H. R. E. SCHUIT, W. HIJMANS & G. E. M. ASMA: Identification of mononuclear cells in human blood. I. Qualitative and quantitative data on surface markers after formaldehyde fixation of the cells 559
H. R. E. SCHUIT & W. HIJMANS: Identification of mononuclear cells in human blood. II. Evaluation of morphological and immunological aspects of native and formaldehyde-fixed cell populations 567
P. J. KILSHAW & HESTER SLADE: Passage of ingested protein into the blood during gastro-intestinal hypersensitivity reactions: experiments in the preruminant calf 575
C. G. M. KALLENBERG, G. C. DE GAST & T. H. THE: Suppression of DNA synthesis by Con A-activated human lymphocytes: role of monocytes in Con A-induced suppression 583
